DETAILED ACTION

Applicant's amendments filed September 12, 2005 have been entered. Claims 18-22 and 30-34 are pending.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant has demonstrated the herein claimed vitamin D compound having about 10-100 times more active than other vitamin D compounds of DeLuca 10-100 times in causing HL-60 cell differentiation activity. Since the relationship among the leukemia cells, breast, colon, prostate cancer are well known, as evidenced by van Leeuwen and Pols, provided by the applicants along with the amendments filed September 12, 2005, the method of employing the herein claimed vitamin D compound to treat breast, colon, prostate cancer and leukemia is considered to be novel and unobvious over the closest prior arts.

Claims 18-22 and 30-34 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
